

THE GOODKNIFE FAMILY

We Join Dr Liston Goodknife and the rest of his family, Wife Utility, daughter Spatula and son Cutter as they are tucking into their early evening dinner and watching the TV.

“Evening to All, this is the news, the headlines tonight”

BONG

“Naughty Knife crime is on the rise”.

“Dad, those naughty knives are at it again”

Said Cutter as he was demolishing another fish finger.

**“They are very naughty and bad that’s right Cutter and please don’t talk with your mouth full as you are pebble dashing
Flick the cat”**

“Tell me about it” Mumbled Flick

“You do so much good using yours’s dad at the hospital”

Said Cutter gulping down what’s left in his mouth.

“That’s right son, I was taught by very experienced teachers at the National Medical college of Fixem, they showed me that knives can make people better if used in the right way and in the right

environment and to always keep them safe, they are not a plaything”

**“Mum” said a very interested Spatula.
“You do so many nice food things with your equipment that make all your customers happy with your cooked yummys”**

“I was taught by the great Chef La Plate on how to use them for the right purpose they were made for and help create great things in the kitchen while I was on my apprenticeship course at the Hotel Savoly”

Replied Utility while balancing another plate of food.

Spatula nodded in admiration at her mum’s achievements then replied.

“My Art Teacher at School, Ms Scribble, taught all our class that you can create wonderful clay models if you use the equipment right and not mess about with them and always keep them locked up when we finished”

“That’s right Spatula, I thought that cup you made me was brilliant, I can’t wait

for you to finish it with the handle,
eventually?”

“Even at your age Cutter if your taught right on how to use Knives for the right things you can be safe as well as everyone around you, those model aeroplanes you make are a real work of art shame you crash land them against the wall when you finish them” Said dad in a bemused way

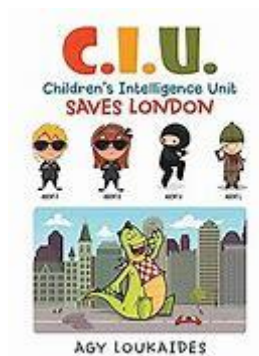

“You see guys knives are a great tool if used in the right way, you can save peoples lives as well as give people a lot of pleasure and happiness when your making things, the naughty knives are bad they just bring sadness and bad memories to all when they are not used sensibly,” said dad.

The whole Goodknife family and Flick the cat nodded in agreement and carried on eating there dinner.
